Subject: Invitation to Explore Multilateral Financial & Infrastructure Synergy

Dear Corporate Investor/Client/Partner,

On behalf of the Board of Trustees of **"LIGHTACE™ GLOBAL INC. t/a LIGHTACE GROUP OF COMPANIES" & AMR-LIGHTACE™ GROUP (UK) LTD**, I am pleased to introduce our firm as a multilateral partner dedicated to the convergence of institutional capital and transformative technology.

We are entering an era where the traditional boundaries between financial services, physical infrastructure, and digital ecosystems are dissolving.

At **AMR-LIGHTACE™ GROUP**, we have positioned ourselves at the center of this transition. Our mission is to provide the "technological plumbing" for modern commerce through our proprietary **B2B and A2A payment stacks**, while simultaneously developing the tangible assets—**Aviation, Banking Infrastructure, Insurance & Legal brokerage, Real Estate, Fintech (Quantum Financial Systems) & Partnership ecosystem, Floating Production, Storage and Offloading (FPSO Integration & Welding Yard), and Smart City Infrastructure**—that define the global economy.

Our firm is uniquely structured to offer more than just capital. We provide a comprehensive value chain that includes:

- **Financial Velocity:** Removing friction via our FINTECH hub and A2A settlement layers.
- **Industrial Expertise:** Delivering high-spec engineering solutions in Aerospace and Property Development.
- **Strategic Support:** Offering Loan Enhancement Facilities, Insurance and Legal Brokering to ensure project viability in complex regulatory environments.
- **Innovation Intelligence:** Utilizing our AI Incubation Hub to future-proof every investment we touch.

The enclosed brochure outlines our core pillars and showcases our **"Project Spotlight"**, a testament to how our diversified services synthesize into a single, high-performance ecosystem.

We have identified your interest as that of an organization that shares our vision for excellence and forward-thinking growth. We are eager to discuss how our multilateral capabilities can enhance your current strategic objectives, whether through technological integration or infrastructure partnership.

We invite you to review the following materials and welcome the opportunity for a formal introductory dialogue between our respective executive teams.

Yours sincerely,

Mr. Freeman Christopher

AMR-LIGHTACEGROUP (UK) LTD. - *The Nexus of Capital & Connectivity.*

"We don't just invest in the future of finance; we build the infrastructure that makes it possible."

ABOUT US

"AMR-LIGHTACEGROUP (UK) LTD." is a forward-thinking multilateral project management and investment hub, a conglomerate positioned at the intersection of traditional capital excellence and the digital future. We have operated as a group of Companies in Africa for over two decades and have expanded into the United Kingdom in the past 3years. We are building a sophisticated technological hub designed to redefine how value is moved and managed globally.

Executive Summary

In an era of rapid fiscal evolution, "**AMR-LIGHTACEGROUP (UK) LTD."** serves as a bridge between stable investment strategies and high-growth technical innovation. We are not just a fund; we are an architect of the next-generation **FINTECH ecosystem**, focusing on the seamless integration of **Account-to-Account (A2A)** and **Business-to-Business (B2B)** payment stacks.

AMR-LIGHTACEGROUP (UK) LTD. is a premier multilateral financial investment house and a dedicated catalyst for the next generation of global commerce. Headquartered in Africa, with Regional Offices in the United Kingdom and the United States, via our FINCEN MSB-registered partnership with Remit Global Inc. USA. We operate at the sophisticated frontier where **strategic capital management** meets **pioneering financial technology.**

Our firm was established on the principle that modern finance requires more than just liquidity; it requires an intelligent infrastructure. We serve as a high-performance technological hub, bridging the gap between traditional investment structures and the agile requirements of the digital economy. By housing both a robust investment portfolio and a cutting-edge **B2B and A2A payment stack**, we provide a holistic ecosystem for value creation.

At our core, we are architects of efficiency. Our IT-driven approach focuses on dismantling the friction inherent in legacy banking, replacing it with streamlined, direct-to-account solutions that empower businesses to move at the speed of thought.

OUR MISSION & VISION

Vision: To become the premier global engine for frictionless financial infrastructure and frictionless movement of funds, where technology and capital work in perfect symmetry.

Mission: To empower businesses and institutions with a high-performance payment stack that eliminates unnecessary costs, enhances security, and provides instant liquidity.

"To redefine the velocity of global trade by engineering an interconnected financial landscape where capital flows without borders, and technology serves as the ultimate bridge for B2B excellence." Our mission is to lead the transition toward a decentralized yet highly integrated financial future. We are committed to:

- **Innovating the Stack:** Developing proprietary A2A (Account-to-Account) technologies that reduce reliance on outdated intermediaries.
- **Empowering Enterprise:** Providing B2B partners with a scalable technological hub that optimizes liquidity and operational transparency.
- **Strategic Stewardship:** Deploying multilateral investment strategies that foster long-term stability and

CORE PILLARS OF OPERATION

Pillar	Focus Area	Objective
Multilateral Investment	Global Markets & Private Equity	Diversifying risk while maximizing yield through strategic cross-border asset management.
FINTECH Innovation	A2A Payment Solutions	Reducing intermediary friction by facilitating direct bank-to-bank settlements.
IT Infrastructure	B2B Technological Hub	Providing the "plumbing" for modern commerce via robust, scalable API integrations.

Why AMR-LIGHTACE™ GROUP?

We recognize that the future of finance is "invisible." By investing heavily in our **Information Technology payment stack**, we provide:

- **Direct Connectivity:** Leveraging A2A technology to bypass traditional card schemes, lowering transaction fees for our partners.
- **Institutional Stability:** A firm foundation in multilateral investment ensures that our tech ventures are backed by sound fiscal logic and deep capital reserves.
- **Scalable Hub Architecture:** Our B2B hub is designed for interoperability, allowing legacy systems to integrate effortlessly with modern FINTECH tools.
- Sustainable growth for our stakeholders.

FUTURE OUTLOOK

As we scale, **AMR-LIGHTACE™ GROUP (UK) LTD.** is committed to the continuous development of its proprietary tech stack. Our roadmap includes the expansion of our UK-based hub into emerging markets, creating a truly global web of interconnected financial services.

THE TECHNOLOGICAL EDGE

In a world of fragmented systems, **AMR-LIGHTACE™ GROUP (UK) LTD.** stands as a unified hub. Our aspiring FINTECH suite is built on a foundation of security, scalability, and speed.

- **A2A Integration:** Real-time settlements that bypass traditional fee-heavy networks.
- **B2B Hub:** A centralized Information Technology stack designed for seamless enterprise interoperability.
- **Global Vision:** An African Innovation, UK-based perspective with the technical capacity to impact markets on a multilateral scale.

Our “Service Catalogue" for **AMR-LIGHTACE™ GROUP (UK) LTD** expands from a Fintech-focused firm into a diversified industrial and financial powerhouse.

WELDHOUSE FABRICATION YARD (“WHFY”) —IN PARTNERSHIP WITH LIGHTACE ENERGY GROUP

Weld House Fabrication Yard (“WHFY”)
LightAce™ Energy Group | Equity Partnership & Strategic Project Launch

Proposed institutional content and investment framework——

The proposed “WHFY” project is positioned as a Nigerian oil-and-gas fabrication, welding, and integration platform, developed through a strategic partnership between **LightAce™ Energy Group and Weld House Fabrication Yard.** Its commercial purpose is to build and scale local industrial capacity for fabrication, mechanical integration, welding, engineering support, equipment assembly, maintenance, and related oil-and-gas services.

The project is framed around an 18-month mobilisation and launch programme, supported by a proposed USD 1 billion (One Billion USD) equity-partnership commitment, deployed in stages against independently verified milestones.

1. Strategic context: Nigeria's expanding deepwater opportunity

A particularly relevant national-sector development is the Bonga South-West Aparo (BWSAp) project under OML 118. In its press release dated 24 August 2026, NNPC Limited confirmed that it and the OML 118 contractor parties—Shell Nigeria Exploration and Production Company Limited (SNEPCo), Esso Exploration and Production Nigeria (Deepwater) Limited, and Nigerian Agip Exploration Limited—had executed addenda to the Production Sharing Contract and Dispute Settlement Agreement.

NNPC described BWSAp as having the potential to attract US$15 billion–US$21 billion in investment over the life of the project. The release also confirmed completion of the Pre-FEED phase, with progression to FEED subject to the relevant partner, assurance and governance requirements. It identified opportunities for Nigerian businesses in engineering, fabrication, offshore construction, logistics and operations, and specifically highlighted local fabrication capability, technology transfer and skills development.

NNPC

The relevance to "WHFY": this provides a credible sector context for developing a capable Nigerian fabrication and integration ecosystem. It does not, by itself, establish that "WHFY" or LightAce™ Energy Group has been appointed, approved, contracted, or endorsed by NNPC, the Bonga project partner, or any operator.

The proposed project should therefore be presented as a local-content-oriented industrial-capacity initiative seeking to qualify for and compete for eligible work packages through the appropriate procurement and regulatory channels.

2. Proposed positioning and institutional description

"WHFY" | LIGHTACE ENERGY GROUP | STRATEGIC EQUITY PARTNERSHIP

Building Nigeria's Next-Generation Oil & Gas Fabrication, Welding and Integration Infrastructure.

Weld House Fabrication Yard ("WHFY") is an industrial development initiative established around the strategic partnership between LightAce Energy Group and Weld House Fabrication Yard, with the objective of developing a scalable, technically competent and commercially competitive oil-and-gas fabrication and integration facility in Nigeria.

The proposed facility, designated "WHFY-FPSO" (Oil & Gas Integration & Welding Yard), is intended to serve as an industrial platform for fabrication, welding, engineering support, equipment integration, mechanical assembly, infrastructure development, maintenance and project-related manufacturing services across Nigeria's upstream, midstream and downstream petroleum value chains.

The partnership seeks to combine strategic business development, investment mobilisation, local industrial capacity, engineering expertise, technical procurement and project execution capabilities to establish a commercially sustainable fabrication enterprise.

The development programme is structured around an 18-month launch framework, with a proposed aggregate equity investment commitment of USD 1 billion, released against verifiable construction, infrastructure, equipment acquisition, regulatory and operational-readiness milestones.

Its long-term ambition is to position "WHFY" as a dependable Nigerian industrial-services partner for international oil companies, indigenous petroleum operators, engineering contractors, EPC/EPCI contractors, equipment manufacturers, offshore construction companies and other qualified energy-sector participants.

3. The strategic opportunity: why WHFY, why Nigeria?

Nigeria's oil and gas industry requires more than access to hydrocarbon resources. Sustainable industry development also requires the infrastructure, engineering capabilities, equipment, specialist personnel and domestic supply chains necessary to execute major petroleum projects within the country.

The development of local fabrication facilities represents an opportunity to retain a greater proportion of industrial expenditure within Nigeria, reduce unnecessary dependence on imported fabrication services, improve domestic equipment assembly, facilitate technology transfer and develop an internationally competitive technical workforce.

The NNPC Bonga South-West Aparo announcement provides a relevant example of this opportunity. NNPC's announcement specifically identifies:

- Increased participation by Nigerian contractors and suppliers.
- Direct and indirect employment opportunities.
- Engineering and fabrication opportunities.
- Offshore construction and logistics.
- Improved indigenous fabrication, marine and engineering capabilities.
- Technology transfer and specialist skills development.

NNPC expressly refers to the importance of creating “increased contracting opportunities for indigenous companies” and enhancing local fabrication capability.

NNPC

For “WHFY”, these developments demonstrate the potential value of an industrial facility capable of supplying qualified fabrication and engineering services to projects of significant national and international importance.

WHFY's commercial proposition is therefore based on becoming part of the industrial supply chain that supports Nigeria's evolving petroleum infrastructure—not merely establishing another conventional welding workshop.

4. Strategic objectives of the “WHFY” project

The project will be organised around seven principal development objectives.

A. Establishment of an integrated fabrication yard

Develop an industrial facility with dedicated fabrication, welding, assembly, inspection, storage and logistical infrastructure capable of supporting multiple project work packages.

B. Indigenous engineering and manufacturing capacity

Build domestic capacity for structural fabrication, pipework, mechanical assemblies, specialised welding and equipment integration, subject to the applicable engineering specifications and certifications.

C. Local-content participation

Position the operating entity to participate in the Nigerian oil-and-gas procurement ecosystem through the necessary indigenous ownership, workforce, assets, supplier development and regulatory qualification arrangements.

D. Strategic international partnerships

Pursue relationships with original equipment manufacturers (OEMs), engineering firms, technical service providers, specialist contractors and international investors to transfer technical expertise and improve production capabilities.

E. Workforce development

Create an organised technical development programme for Nigerian engineers, certified welders, fabricators, fitters, technicians, inspectors, artisans and industrial management personnel.

F. Industrial supply-chain development.

Establish a domestic network of qualified materials suppliers, equipment distributors, logistics companies and specialist subcontractors.

G. Long-term commercial expansion

Develop “WHFY” into a scalable industrial-services business serving multiple operators and energy infrastructure projects, rather than depending on one petroleum operator or a single project award.

OUR STRATEGIC SERVICE ECOSYSTEM

At **AMR-LIGHTACE GROUP (UK) LTD.**, we operate a multilateral model that synergizes high-tech financial tools with tangible physical assets. Our services are categorized into three primary pillars: **Digital Infrastructure**, **Physical Infrastructure**, and **Strategic Value-added Services.**

I. FINTECH & DIGITAL INFRASTRUCTURE

We are the architects of the "invisible" financial layer, focusing on direct-settlement technologies and institutional banking facilitation.

A2A (Account-to-Account) Payment Stack:

- Direct bank-to-bank settlement systems that bypass traditional card schemes.
- Reduction of transaction friction and elimination of high intermediary fees.
- Real-time liquidity management for high-velocity trading environments.

B2B Technological Hub:

- Custom API integrations for enterprise-level financial operations.
- Secure data-sharing protocols for multilateral corporate partnerships.
- **Core Banking Facilitation:** Bridging the gap between emerging Fintech and legacy banking systems.
- Providing the compliance and technical framework for neobanking and digital-first financial institutions.

II. REAL ASSETS & SMART INFRASTRUCTURE

We invest in the foundational elements of modern society, from luxury transit to the cities of tomorrow.

Aviation & Aerospace:

- Strategic investment in aviation assets, leasing, and high-end charter logistics.
- Financing for aerospace innovation and sustainable aviation fuel (SAF) initiatives.

Real Estate & Property Development:

- End-to-end development of prime residential and commercial real estate portfolios.
- Focus on high-yield urban redevelopments and luxury hospitality assets.

Smart City Infrastructure:

- Developing the "Digital Twin" and physical connectivity for intelligent urban centres.
- Integrating IoT (Internet of Things) into municipal power, transit, and waste management systems.

III. VALUE-ADDED STRATEGIC SERVICES

Beyond capital, we provide the intellectual and structural tools necessary for complex global operations.

Loan Enhancement Facilities with Insurance brokering:
Sophisticated credit & Insurance wrapping and collateral optimization to improve borrowing terms and project viability for our partners.

Legal, Insurance Brokering & Contractual Engineering:
High-level advisory on cross-border legal frameworks, ensuring multilateral compliance and robust intellectual property protection.

AI Incubation Hub:
A dedicated laboratory for machine learning and artificial intelligence applications in predictive finance and urban management.

Accelerating start-ups that align with our B2B and Smart City vision.

OUR CORE VALUES

Value	Definition
Integrity in Innovation	We ensure every technological leap is grounded in ethical financial practices and regulatory excellence.
Multilateral Synergy	We believe the greatest value is created at the intersection of diverse industries and global markets.
Future-Proof Resilience	From our payment stacks to our smart cities, we build for the next century, not just the next quarter.
Architectural Precision	Whether drafting a legal contract or a skyscraper, we prioritize meticulous detail and structural soundness.

HIGH-INFRASTRUCTURE DIVISION ——

This structured high-infrastructure division ensures our potential partners and investors understand the granular expertise behind your capital.

TECHNICAL DOMAINS & INFRASTRUCTURE

I. Aviation & Aerospace Engineering Services

Our aviation division transcends simple leasing; we manage the lifecycle of high-value aerospace assets through data-driven technical oversight.

- **Asset Lifecycle Management (ALM):** Technical auditing of airframes and powerplants, ensuring residual value optimization and regulatory compliance (EASA/FAA).
- **Next-Gen Avionics Integration:** Facilitating the retrofit of legacy fleets with advanced satellite navigation and fuel-efficiency monitoring systems.
- **Aerospace Logistics Hubs:** Developing AI-driven MRO (Maintenance, Repair, and Overhaul) facilities at strategic global waypoints to minimize AOG (Aircraft on Ground) time.
- **Sustainable Aviation Fuel (SAF) Infrastructure:** Investing in the supply chain and distribution hardware required for the decarbonization of commercial flight.

II. Smart City & Urban Infrastructure

We don't just build structures; we build "Living Systems" that utilize a unified digital nervous system.

- **Integrated Urban Operating Systems (U-OS):** Centralized software stacks that manage municipal traffic, energy grids, and water systems through real-time telemetry.
- **Edge Computing & 5G Connectivity:** Deploying the hardware mesh required for low-latency communication between autonomous vehicles and city sensors.
- **Renewable Energy Microgrids:** Implementing localized solar and wind harvesting systems with industrial-scale battery storage (BESS) for district-level energy independence.
- **IoT Waste & Resource Management:** Automated pneumatic waste collection systems and sensor-based water leak detection to reduce urban overhead.

PROJECT SPOTLIGHT: THE "AERO-CIVIS" CORRIDOR

A Multilateral Smart City & Aviation Integration Initiative

The **Aero-Civis Corridor** serves as the flagship blueprint for **AMR-LIGHTACE GROUP's** integrated capabilities. This project demonstrates the seamless fusion of a **Next-Gen Aviation Hub** with a **Self-Sustaining Smart City**, all powered by our proprietary **FINTECH Payment Stack**.

1. THE VISION: The Aerotropolis of 2030

Located at a strategic global transit point, the Aero-Civis Corridor is not merely an airport—it is a carbon-neutral urban center where logistics, living, and high-tech commerce coexist.

2. INTEGRATED SERVICE EXECUTION

Phase / Sector	Service Delivered	Technical Application
FINTECH & B2B	**The Unified Ledger**	Every transaction within the city—from aircraft refuelling to retail—is processed through our **A2A (Account-to-Account) stack**, eliminating credit card fees and providing instant liquidity for vendors.
Aviation	**MRO & SAF Hub**	We engineered a state-of-the-art **Maintenance, Repair, and Overhaul (MRO)** facility equipped with automated AI diagnostics and a dedicated **Sustainable Aviation Fuel (SAF)** refinery.
Smart City	**The Digital Nervous System**	The city utilizes our **IoT Infrastructure** to manage a "Digital Twin," allowing for real-time adjustments in energy consumption, autonomous transit flow, and waste management.
Infrastructure	**Modular Urban Living**	Our **Property Development** team constructed high-density, green-certified residential zones designed for the "mobile workforce," featuring integrated smart-home technology.

3. VALUE ADDED SUCCESS FACTORS

- **AI Incubation:** The corridor hosts an on-site **AI Hub**, where start-ups develop predictive algorithms for flight scheduling and urban energy load-balancing.

- **Loan Enhancement: AMR-LIGHTACE GROUP (UK) LTD.** utilized its **Loan Enhancement Facilities** to secure favourable financing terms for the project's Tier-1 construction partners, reducing the overall cost of capital.
- **Legal & Insurance Brokering:** Our legal team navigated complex international aviation laws and local municipal regulations to create a **Special Economic Zone (SEZ)** within the corridor.

4. IMPACT METRICS (PROJECTED)

- **Transaction Efficiency:** 40% reduction in B2B payment processing costs via A2A integration.
- **Sustainability:** 100% renewable energy usage across all municipal buildings via our Microgrid technology.
- **Economic Velocity:** $2.5B+ in annual multilateral trade facilitated through the B2B tech hub.

"The Aero-Civis Corridor isn't just a project; it is the physical manifestation of the AMR LIGHTACEGROUP ecosystem—where capital meets the code that builds the future."

EXECUTIVE LEADERSHIP & (GOVERNANCE PHILOSOPHY)

The Board of **AMR-LIGHTACE GROUP (UK) LTD.** operates under a **"Triple-Bottom-Line"** framework: prioritizing **Profit, People, and Progress.** We ensure that every technological deployment—from a B2B payment hub to a Smart City grid—is audited for security, sustainability, and socio-economic impact.

To bring the AMR-LIGHTACE GROUP (UK) LTD. vision to life, this "Project Spotlight" section illustrates how our multilateral investment strategies, FINTECH stack, and infrastructure expertise converge in a high-stakes, real-world application.

*The strength of **AMR-LIGHTACE GROUP (UK) LTD.** lies in our multidisciplinary leadership. Our board comprises veterans from the worlds of Tier-1 Banking, Civil Engineering, and Silicon Valley Innovation.*

DISPUTE RESOLUTION

Informal Negotiations

To expedite resolution and control the cost of any dispute, controversy, or claim related to these Terms of Use (each "Dispute" and collectively, the "Disputes") brought by either you or us (individually, a "Party" and collectively, the "Parties"), the Parties agree to first attempt to negotiate any Dispute (except those Disputes expressly provided below) informally for at least thirty (30) days before initiating arbitration. Such informal negotiations commence upon written notice from one Party to the other Party.

Binding Arbitration

Any dispute arising from the relationships between the Parties to this contract shall be determined by one arbitrator who will be chosen in accordance with the Arbitration and Internal Rules of the European Court of Arbitration being part of the European Centre of Arbitration having its seat in Strasbourg, and which are in force at the time the application for arbitration is filed, and of which adoption of this clause constitutes acceptance.

The seat of arbitration shall be the United Kingdom (London) or British Columbia ("BC"). The language of the proceedings shall be in English. Applicable rules of substantive law shall be the law of "BC".

Restrictions

The Parties agree that any arbitration shall be limited to the Dispute between the Parties individually.

To the full extent permitted by law:

(a) no arbitration shall be joined with any other proceeding;
(b) there is no right or authority for any Dispute to be arbitrated on a class-action basis or to utilize class-action procedures; and
(c) there is no right or authority for any Dispute to be brought in a purported representative capacity on behalf of the general public or any other persons.

Exceptions to Informal Negotiations and Arbitration

The Parties agree that the following Disputes are not subject to the above provisions concerning informal negotiations and binding arbitration:

(a) any Disputes seeking to enforce or protect, or concerning the validity of, any of the intellectual property rights of a Party;
(b) any Dispute related to, or arising from, allegations of theft, piracy, invasion of privacy, or unauthorized use; and
(c) any claim for injunctive relief. If this provision is found to be illegal or unenforceable, then neither Party will elect to arbitrate any Dispute falling within that portion of this provision found to be illegal or unenforceable and such Dispute shall be decided by a court of competent jurisdiction within the courts listed for jurisdiction above, and the Parties agree to submit to the personal jurisdiction of that court.

Notwithstanding the foregoing, we reserve the right, at your expense, to assume the exclusive defense and control of any matter for which you are required to indemnify us, and you agree to cooperate, at your expense, with our defense of such claims. We will use reasonable efforts to notify you of any such claim, action, or proceeding that is subject to this indemnification upon becoming aware of it.

USER DATA
We will maintain certain data that you transmit to the Site for the purpose of managing the performance of the Site, as well as data relating to your use of the Site. Although we perform regular routine backups of data, you are solely responsible for all data that you transmit, or that relates to any activity you have undertaken using the Site. You agree that we shall have no liability to you for any loss or corruption of any such data, and you hereby waive any right of action against us arising from any such loss or corruption of such data.

ELECTRONIC COMMUNICATIONS, TRANSACTIONS, AND SIGNATURES
Visiting the Site, sending us emails, and completing online forms constitute electronic communications. You consent to receive electronic communications, and you agree that all agreements, notices, disclosures, and other communications we provide to you electronically, via email, and on the Site, satisfy any legal requirement that such communication be in writing.

SITE MANAGEMENT
We reserve the right, but not the obligation, to:

(1) monitor the Site for violations of these Terms of Use;
(2) take appropriate legal action against anyone who, in our sole discretion, violates the law or these Terms of Use, including without limitation, reporting such user to law enforcement authorities;
(3) in our sole discretion and without limitation, refuse, restrict access to, limit the availability of, or disable (to the extent technologically feasible) any of your Contributions or any portion thereof;
(4) in our sole discretion and without limitation, notice, or liability, to remove from the Site or otherwise disable all files and content that are excessive in size or are in any way burdensome to our systems; and
(5) otherwise manage the Site in a manner designed to protect our rights and property and to facilitate the proper functioning of the Site.

YOU HEREBY AGREE TO THE USE OF ELECTRONIC SIGNATURES, CONTRACTS, ORDERS, AND OTHER RECORDS, AND ELECTRONIC DELIVERY OF NOTICES, POLICIES, AND RECORDS OF TRANSACTIONS INITIATED OR COMPLETED BY US OR VIA THE SITE.

You hereby waive any rights or requirements under any statutes, regulations, rules, ordinances, or other laws in any jurisdiction that require an original signature or delivery or retention of non-electronic records, or to payments or the granting of credits by any means other than electronic means.

USERS AND RESIDENTS

These Terms of Use and any policies or operating rules posted by us on the Site or with respect to the Site constitute the entire agreement and understanding between you and us.

Our failure to exercise or enforce any right or provision of these Terms of Use shall not operate as a waiver of such right or provision. These Terms of Use operate to the fullest extent permissible by law.

We may assign any or all of our rights and obligations to others at any time. We shall not be responsible or liable for any loss, damage, delay, or failure to act caused by any cause beyond our reasonable control. If any provision or part of a provision of these Terms of Use is determined to be unlawful, void, or unenforceable, that provision or part of the provision is deemed severable from these Terms of Use and does not affect the validity and enforceability of any remaining provisions.

There is no joint venture, partnership, employment, or agency relationship created between you and us as a result of these Terms of Use or use of the Site. You agree that these Terms of Use will not be construed against us by virtue of having drafted them. You hereby waive any defenses you may have based on the electronic form of these Terms of Use and the lack of signing by the parties hereto to execute these Terms of Use.

To resolve a complaint regarding the website, and/or to receive further information regarding the use of the site, or if you have any concerns about material, interpretations, or services that appear on our site, please do not hesitate to contact us by email: lightacegrplegal@pm.me
